Experience

Backend Developer (Intern) — EWN Bangladesh Limited

November, 2024 – February, 2025

- **Limo – Ride Sharing App**
 - Fixed critical bugs and refactor codes for better maintainability.
 - Scheduled tasks to increase user engagement and reduce manual labor.
- **Porichoy – Billboard Scheduling System**
 - Designed and implemented a media scheduler for Raspberry PI using Celery Beat and Redis, reducing manual scheduling time
 - Developed user profile management features, enhancing usability.
- **Gorukhasi – E-Commerce Website for Cattles**
 - Refactor existing code base from function-based to DRF class-based view.
 - Enhanced authentication & authorization, order handling functionality, increasing transaction accuracy.

Education

B.Sc. In Computer Science and Engineering — East West University, Dhaka, Bangladesh,

January, 2020 – September, 2024

Skills

- **Frontend:** HTML, CSS, JavaScript, React JS, Next JS, Zustand, Tailwind CSS, Chakra UI
- **Backend:** Node JS, Express, Mongoose, Django, Celery, DRF
- **Databases:** MongoDB, MySQL, Postgres, Supabase, Redis
- **Tools & Others:** Docker, Figma, Git & GitHub, TensorFlow, SKLearn

Projects

DevEdu — E-learning Web Application

- **Features:** User authentication & authorization, enroll in courses, gift courses, wish list, certificate generation, search, filter, sort, admin panel, and card payment.
- **Tech Stack:** HTML, CSS, JavaScript, Python, Django, SQLite, Stripe
- [Demo Video](#) | [GitHub](#)

Clothzy — E-Commerce Website

- **Features:** Authentication, CRUD operations, token management, analytics with graphs, admin panel, cart, order, card payment, and filters.
- **Tech Stack:** Node.js, Express, MongoDB, React.js, Tailwind CSS, Mongoose, Stripe, Framer-motion
- [Live](#) | [Demo Video](#) | [GitHub](#)

Wild Oasis — Hotel Booking System

- **Features:** Add, update, and delete room details, user authentication, theme customization, pagination, filters, and activity analytics.
- **Access:** Email: zahidulturja@gmail.com, password: admin123
- **Tech Stack:** React.js, Tailwind CSS, React Query, Supabase
- [Live](#) | [Demo Video](#) | [GitHub](#)

Mimic — A Multipurpose Web Application

- **Features:** Uses online APIs to show diverse features and functionalities, including e-commerce, social site, image gallery, food recipes etc.
- **Tech Stack:** Next.js, Tailwind CSS, Axios
- [Live](#) | [Demo Video](#) | [GitHub](#)

Meter Snap — Electric Meter Detection and OCR (Mobile App)

- **Features:** Electric meter identification, digit box recognition, and reading digits from the digit box.
- **Tech Stack:** React Native, Python, Flask, TensorFlow, Yolo V5
- [GitHub](#)
